

## **Phil Kuszpa**

### **Amec Foster Wheeler**

**Phil Kuszpa** is the Manager of the Environmental Permitting & Planning group at Amec Foster Wheeler's Chelmsford, MA office and serves as the vice-chair for the Air & Waste Management Association's New England Chapter. He is a Mechanical Engineer with over 35 years' experience in environmental issues for a variety of client types; including the waste-to-energy, food, and energy sectors. Phil participated in the MassDEP's Organics Reduction Task Force which laid the groundwork for changes in the Massachusetts siting rules to allow for anaerobic digesters and composting facilities. He is a staunch advocate of Anaerobic Digester (A-D) development and presently is actively working on several such projects in the U.S. He also served as program chair, and introductory speaker for the A&WMA-NE's annual conference on the topic of the status of the organic waste bans in the northeast states.
